PROFESSIONAL SUMMARY

Senior Software Engineer at Infosys with 4+ years of experience building scalable backend systems and AI-driven cloud solutions on Azure. Double award recipient (RISE Gracias 2024, RISE Insta 2025) for exceptional project delivery and team leadership. Proven track record: 70% API performance improvement, 3M+ record migrations across 4 regions, and RAG-based AI solutions using Azure OpenAI. Published thought leader on .NET and cloud engineering.

SKILLS

Languages	C#, Python
Cloud & DevOps	Azure App Service, Azure AI Services, Azure DevOps, Azure OpenAI, Azure Blobs, Azure Event Hubs
Databases	MSSQL, PostgreSQL, PGAdmin, SQL Server
Messaging & Infra	Confluent Kafka, MinIO, Alibaba OSS
Tools & AI	GitHub Copilot, Cursor, Lovable, NuGet, Git

WORK EXPERIENCE

Specialist Programmer — Infosys Ltd

Sep 2023 - Present | Gurgaon

- ★ **RISE Gracias Award (Nov 2024) & RISE Insta Award (Nov 2025) — recognised for exceptional project delivery, complex API implementation from scratch, and team leadership.**
- Redesigned API architecture using Azure App Service, Azure OpenAI (RAG), and MSSQL, cutting response time by 70% (10s to 3s) and significantly improving stakeholder experience.
- Led cross-application database synchronisation for 3M+ records across Singapore, Europe, China, and Canada — achieving 100% data integrity with zero production incidents.
- Built a RAG-based AI document querying solution using Azure OpenAI Service and Clean Architecture, reducing manual lookup time for internal and external stakeholders.
- Conducted 50+ code reviews across a 6-member team, raising code quality standards and reducing post-deployment defects across multiple production releases.
- Published 3 technical articles on Medium covering HttpClientFactory, Factory Pattern in .NET 8, and GitHub Copilot — establishing thought leadership in the .NET developer community.

Programmer Analyst — Cognizant Technology Solutions

Aug 2022 - Sep 2023 | Noida

- Designed and executed migration strategies for .NET Core 2.0/2.1 applications across Singapore, Europe, China, and Canada — ensuring high availability and regional scalability.
- Migrated RDBMS (MSSQL, PostgreSQL), object storage (Azure Blobs, MinIO, Alibaba OSS), and messaging systems (Confluent Kafka, Azure Event Hubs) to a cloud-agnostic architecture.
- Spearheaded development of reusable NuGet packages for logging and cloud integration, enabling standardised code reuse across international teams.
- Served as primary technical point of contact for global deployments, ensuring smooth transitions and 100% data integrity across all regions.

Programmer Analyst Trainee — Cognizant Technology Solutions

Aug 2021 - Aug 2022 | Noida

- Migrated 1,000+ DDLs and DMLs from MSSQL to PostgreSQL, ensuring full data consistency and compatibility.
- Built 3 mission-critical NuGet packages (Storage, Message Queues, Caching) adopted by all internal teams,

increasing developer productivity by 70%.

- Earned Microsoft AZ-900 certification while completing intensive training in .NET and Cloud Foundations to support enterprise-level cloud migrations.

PROJECTS

RAG Document Query System — Azure OpenAI, .NET 6, PostgreSQL

- Built an end-to-end Retrieval-Augmented Generation system for internal documentation querying, deployed on Azure App Service. Reduced manual document lookup time for stakeholders.

Reusable NuGet Package Suite — C#, .NET, Azure

- Designed and published NuGet packages for Storage, Message Queues, Caching, and Cloud Logging — adopted org-wide across international teams, boosting developer productivity by 70%.

LEADERSHIP

Team Leader — Infosys Makeathon

Jul 2025 – Present | Noida

- Led a team to design and deploy an AI-powered solution using RAG on Azure Services — prototype adopted for internal use following the makeathon.

EDUCATION

BTech in Information Technology — ABES Engineering College

Aug 2021 | Ghaziabad | GPA: 8.12 / 10 (Distinction)

CERTIFICATIONS

Microsoft AZ-900: Azure Fundamentals — Sep 2021

DELF A2 (French Ministry of Education) — Nov 2016
